Complete Product Code:
RB-M700BE-K / RB-M700BE-C

To Be Referred To As:
M700

Variations:
Colour – Black / Sand Beige

Feature	Benefit
Active Noise Cancelling	Active Noise Cancelling eliminates surrounding noise that interferes with the originally intended bass sound, making the bass clearer and more vivid.
Bass Reactor - Physically feel the Bass pumping, through real vibration	Panasonic's unique Bass Reactor amplifies low frequencies through real vibration to produce powerful bass sound that makes you feel like you are at a live festival, concert or club.
Side Pressure Dispersion Technology – for a comfortable fit, all-day	M Series headphones are designed for comfortable, long-term wear, enabled by Side Pressure Dispersion Technology, which ergonomically adjusts the lateral pressure balance between the headband and ear pads.
XBS Deep (Extra Bass System Deep) – for an exceptional bass experience	The XBS DEEP (Extra Bass System) gives you fantastic bass performance at the touch of a button. It activates our 3 core bass technologies: Free Edge Driver, Acoustic Bass Control and Harmonic Tuning EQ to send your tunes back to the club.
Long Battery Life - for up to 20 hours of continuous listening pleasure	The noise-cancelling M700 gives you up to 20 hours of continuous wireless playback, so you can enjoy your music for longer without interruptions.
Quick charge capability – for continued music on-the-go	M-Series wireless headphones have great battery life, but if ever run low a quick charge will get them back in action. Just plug in the USB lead for 15 minutes for another 1.5 hours playback, with noise-cancellation, on M700B.
Bluetooth 5.0 Compatible	The M700 supports Bluetooth so you can listen to all your favourite music wirelessly from your smart devices.
Voice Assistant Activation & Built in Microphone	Smart phone Voice Assistants, such as Siri and Google Assistant, can be activated via the headphones high-quality built-in microphone .This enables you to select music, adjust the volume, and make phone calls, without having to get your smartphone out.

Panasonic's M700B Wireless Headphones capitalise on heavy bass sound for you to enjoy music to the fullest. M700B features Active Noise Cancelling reduces surrounding noise while the Bass Reactor amplifies the bass using actual vibrations, so you can immerse yourself in deep powerful bass wherever you go. Side Pressure Dispersion Technology means that our headphones fit snugly around the ear for a comfortable fit all day long.
