#### Resolution

#### FULL HD (1920 x 1080) resolution

1080p (1920x1080) is a set of HDTV high-definition video modes. With the superb clarity of available 1080p Full HD, you'll enjoy exceptional details no matter on Blu-ray movies, video games or business presentation.

#### Variable Refresh Rates

#### Variable Refresh Rates

Get a seamless, tear-free gaming experience and smooth, responsive visuals with this Variable Refresh Rates by default on HDMI 1.4. Variable Refresh Rates technology is designed to eliminate the screen tearing that often occurs when playing computer games. The result of this variable refresh rate is a smooth, tear-free experience in gaming and video playback applications.

#### Auto Portrait

#### Auto Portrait mode

Normal projectors only allow you to project in one standard angle. With Auto Portrait mode<sup>1</sup>, the QF12 lets you change your projection orientation on the fly! Portrait mode<sup>1</sup> allows projector to be installed with one side of projector facing down. Just stand it up, and the QF12 helps remove those pesky black bars when you enter portrait mode\*.
