Smart Wireless SoC Technology

Consistent Wireless Stability

Advanced 2.4GHz powerful wireless connection with distance up to 10m-15m. Auto-Channel stabilizing plug and leave-in nano receiver provides essentially no delays or connection conflicts.

*Wireless connection distances may vary based on user and computing environments.

Up to 12 Months Battery Life

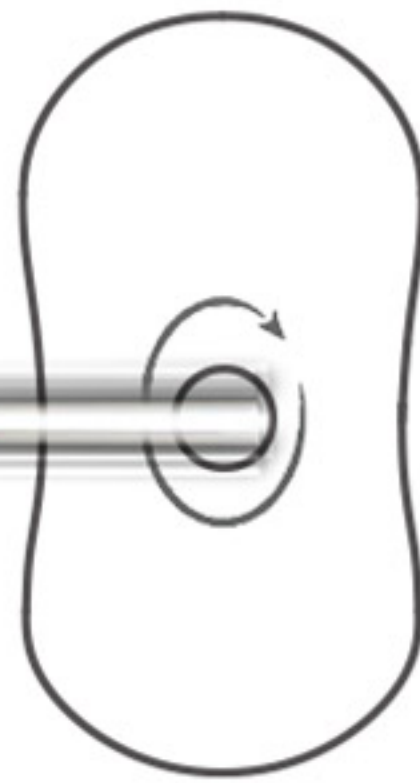

Go longer between battery changes with energy efficient engineering. The power consumption only requires an average of 4mA current and it automatically puts itself to light sleep after 20 seconds and deep sleep when not in use after 8 minutes.

*Battery life up to 12 months may vary based on user and computing conditions.
