# Highlights

## Integrated trimmer with comb

The integrated trimmer and adjustable comb with 5 length settings is designed to offer more power to cut even the thickest hair. The trimmer's steel blades lightly brush against one another, sharpening themselves as they trim so they stay extra sharp and effective. The blades have rounded tips to prevent scratching. To maintain your desired hair length or get a natural look, adjust the comb to a length between 3-11mm. You can use the shaving system on the other side, for a closer result.

## Effortless body grooming

Conveniently shave and trim below the neck. Easily switch between shaving and trimming, and adjust trim lengths without changing attachments. Designed as a safe and comfortable grooming solution for back, shoulders, chest, abs, underarms, arms, groin area and legs.

## Skin-friendly shaver

The shaver head features patented rounded tips and a hypo-allergenic foil to protect your skin while shaving. The bi-directional trimmers cut longer hairs, which are shaved by the foil for a closer result.

## 100% Showerproof

Provides a comfortable and close result in or out of the shower. The body groomer is fully water-resistant, so you can simply rinse it clean when you've finished. For longer hair, trimming performance may be better on dry hair.

## Ergonomic grip

The rubber grip is designed to ensure optimal handling even when wet, for better control during use, in or out of the shower.

## Built to last

All of our grooming products are built to last. They come with a 2-year worldwide guarantee and worldwide voltage, and never need oiling.

## 4-D contour following shaver

Our shaver head easily flexes in 4 directions adapting to the contours of your body to give you a smooth shave all over. Less pressure is needed to shave closely.

## Rechargeable battery power

High-power Li-ion battery for full body use, with 80 minutes of cordless use after a 1 hour charge. The battery light indicates power status when the battery is low or full.
