Care for your hair
- ThermoProtect technology
- Keratin ceramic plates for smooth gliding and shiny hair

Ease of use
- 6 LED temperature settings for precise control
- 100mm long plates for fast and easy straightening
- Fast heat-up time, ready to use in 30 sec
- Auto shut-off for safe usage
- Key-lock function for safe and easy storage
- Universal voltage for worldwide use

Highlights

ThermoProtect technology

ThermoProtect technology distributes heat evenly across the plates, preventing overheating to protect your hair.
Ionic care

Charged negative ions eliminate static, condition the hair and smooth down the hair cuticles to intensify the hair's shine and glossiness. The result is smooth, frizz-free hair with vibrant shine.

Keratin ceramic plates

Keratin-infused ceramic plates glide smoothly through your hair, for quick and easy styling.

Temperature range

Choose between temperature range from 160°C up to 230°C to secure long-lasting result while minimizing risk of hair damage.

6 LED temperature settings

Variable settings from 160°C-230°C with clear LED indication for precise control. Lower temperatures for last minute touch ups and gentle styling. Higher temperatures for long lasting results. Enjoy precise styling for protected hair.

100mm long plates

The longer 100mm plates enable better contact with the hair to help you achieve perfect straightening results easier and in less time.
Fast heat-up time

The straightener has a fast heat-up time, being ready to use in 30 seconds.

Auto shut-off

The styler has an automatic shut-off function for safe usage. It automatically switches off after 60 minutes.

Key-lock function

The plates can be locked together for safe and easy storage.

Universal voltage

Compatible with 110-240 volts. Can be used wherever you travel in the world.

Specifications
