hair clipper with  
Motorized Combs

**Titanium blades**  
400 length settings  
120mins cordless use/1h charge

HC9450/15

## Digital touch control

with Motorized Combs

HAIRCLIPPER Series 9000 gives you total precision and control of your haircut. With Digital Swipe, Motorized Combs, Memory function and a high performance cutting element, it's the only clipper that gives consistently the expected results.

### Ultimate precision and control

- Digital Swipe interface
- Easy to select and lock-in 400 length settings: 0,5 to 42mm
- Adjustable hair combs for the best clipping results

### Performance

- Self-sharpening titanium blades for extra durability
- Motorized Combs for easy length selection
- Auto Turbo to boost cutting speed
- Double-sharpened cutting element cuts two times faster\*
- 2-year guarantee

### Easy to use

- Remembers 3 cutting length settings per comb
- 120 minutes of cordless use after a 1-hour charge

# Highlights

## Digital Swipe interface

The Digital Swipe interface gives you precise feedback on the selected length. Use the touch screen to easily swipe through more than 400 length settings. Quickly browse through lengths or slowly go through each small step of 0.1 mm.

## 400 lock-in length settings

Use the Digital Swipe to precisely select and lock-in the length you want, with more than 400 length settings from 1 to 42mm, and precisely 0,1mm between each length. Or you can use it without the comb for a close 0.5mm trim.

## 3 adjustable hair combs

The clipper comes with 3 adjustable hair combs: from 1 to 7mm, 7 to 24mm and 24 to 42mm. Just attach one of the combs for more than 400 lock-in length settings, with 0,1mm between each length. Or you can use the clipper without the comb for a close 0.5mm trim.

## Titanium blades

The advanced Titanium blades are harder than steel for ultimate durability. In addition, the blades are self-sharpening to ensure long-lasting performance and accurate cutting, time after time.

## Motorized Combs

The motor powered length setting system easily selects and locks in the preferred length. The motor powers the comb and allows selecting between lengths with a precision of up to 0.1mm. This innovative technology gives you the security of clipping all the time at the desired length and achieving consistent results time after time.

## Auto Turbo

The Turbo feature automatically boosts the speed when reaching thick hair, allowing you to get a perfect, effortless cut.

## DualCut Technology

Power through any hair type with our advanced DualCut Technology, which combines a double-sharpened cutting element with low-friction engineering. The innovative cutting element is designed to cut hair twice as fast as regular Philips clippers, with the added confidence of a robust steel guard for ultimate durability.

## iF DESIGN AWARDS 2015

The iF Design Award is known internationally as the most prestigious industrial design award.

Product Design Award for Hairclipper Series 9000
